• Date	Academic year. 2017
Type of study	Training course
• Certificate achieved	Qualification in the National Register of General Director of Healthcare Companies
Purpose	Training course for General Managers of Companies and Organizations of the Regional Health Service
• Date	Academic year. 2015/2016
Type of study	Corso di alta formazione - Gestore della Crisi da Sovraindebitamento
• Certificate achieved	Certificate
Purpose	<p>The Advanced Training course aims to develop a deep knowledge of the training required by the implemented regulation on the purpose of registering the crisis managers in the lists of crisis settlement bodies. With the cancellation of the Ministerial act of the 24th of September 2014, n. 202, which did not allow subjects without a special degree the opportunity to perform the function of over-indebtedness crisis manager, it is possible to enroll in the list of over-indebtedness crisis managers also accountants enrolled in the register.</p> <p>The Law of the 27th of January 2012, n. 3 (amended by the Legislative act 179/2012 issued with Law no.212 in 17/12/2012) provided a new system of insolvency procedures. In fact, in order to remedy situations of over-indebtedness that are neither subject to nor subject to the current insolvency procedures, the debtor is allowed to reach an agreement with creditors as part of the crisis settlement procedure. By "over-indebtedness" we mean a situation of persistent imbalance between the obligations assumed and the assets promptly liquidable to meet it, as well as the definitive inability of the debtor to regularly fulfill his obligations. This is a discipline that provides three ways of solving the non-fallible debtor crisis: the agreement, the consumer's plan and the liquidation procedure of the assets. By means of these procedures, a mechanism for extinction (controlled in court) of the obligations of the over-</p>

	indebted subject is foreseen, which is not fallible, to be implemented through the collaboration of the Bodies for the settlement of the over-indebtedness crisis (hereinafter: Bodies), structures expressly provided for and regulated by law 3/2012 and the related implementing regulation. Professional associations can establish Bodies; in particular then the Chartered Accountants and Accounting Experts (as well as other professionals such as lawyers) can access, through the procedures provided by the implementing regulation, the qualification of Manager of the over-indebtedness crisis, lending their work within the Bodies in resolution proceedings.
Contents	Civil and Commerce Law - Bankruptcy and Civil Execution Law - Business Administration - Tax and Social Security Law - Final Test
• Date	Academic year 2015/2016
Type of study	II° level Master - Judicial Administration of Confiscated Assets: legal profiles and operating models
• Certificate achieved	Certificate
Purpose	<p>The Master's program, starting from the historical and sociological analysis of the criminal phenomenon, examines the evolution of the legislation on the subject without ever losing sight of the practical aspect, to ensure a continuous exchange between theory and practice through the study of practical cases, to provide those specific skills necessary to carry out the activity of Judicial Administrator and Technical Consultant who, at the same time, also allow enrollment in the Register of Judicial Administrators (Legislative act no. 14/2010) managed by the Ministry of Justice.</p> <p>The Master is divided into several modules that analyze both the legal and economic aspects and the applicative ones with the analysis of practical cases.</p>
Contents	History of crime, sociological analysis and economic policy; Seizures and confiscations between the criminal code and special laws - general framework and reference legislation; The investigative activity, the object of the seizure and the confiscation and the figure of the judicial administrator; The execution and implementation of the preventive seizure aimed at confiscation pursuant to art. 321 C.C.P. and related operating practices; Execution and implementation of the preventive seizure aimed at confiscation according to the scheme indicated in Legislative act 159/2011 and analogous application to the preventive seizure aimed at confiscation pursuant to art. 12 sexies D.L. 306/1992; Aspects common to all seizures aimed at confiscation; Relations with bankruptcy and executive procedures and extraordinary operations; Judicial administration and the right of defense; The national agency for the administration and destination of assets seized and confiscated from crime; Anti-money laundering and self-laundering regulations; Final exam.
