Sgd THE RECTOR

CALL FOR APPLICATION FOR THE ADMISSION OF EU AND EQUIPARATED STUDENTS TO THE 6-YEAR DEGREE COURSE IN DENTISTRY AND DENTAL PROSTHETICS OF THE SAINT CAMILLUS INTERNATIONAL UNIVERSITY OF HEALTH SCIENCES (UNICAMILLUS) FOR THE ACADEMIC YEAR 2022/2023

Article 1 – Available slots and admission requirements

Saint Camillus International University of Health Sciences, hereunder referred to as “**UniCamillus**” or the “**Univesity**”, has published for the academic year 2022/2023 the public call for applications for the admission to the first year of the Degree Course in Dentistry and Dental Prosthetics.

25 (twenty-five) slots are available for the EU candidates and for the categories as of art. 26 of the law no. 189 of July 30th 2002 and subsequent amendments and alterations for the Degree Course in Dentistry and Dental Prosthetics.

The number of slots available may vary as a result of what will be established by Decree of the Ministry of University and Research (MUR), in accordance with Law no. 264 of August 2nd 1999. The Decree of the MUR may decide the confirmation, increase or decrease of the slots specified in this announcement. The University will make the aforementioned Ministerial Decree accessible on its website.

The selection procedures include two test sessions: ordinary and extraordinary (if any). If, following the outcome of the registration procedures of the ordinary session, there are vacancies, an extraordinary session will be held. The number of vacancies and any extraordinary session will be notified by publication on the University website, which is the only official communication tool of the University.

Citizens from Norway, Iceland, Liechtenstein, Helvetic Confederation, Republic of San Marino and Vatican City are treated as EU candidates.

Candidates in possession of a secondary school diploma on the date of the test and candidates who, on the date of the test, are attending the last year of secondary school are admitted to participate in the admission test.

For candidates who have already achieved a secondary school diploma issued by a foreign education system or are enrolled in the last year necessary to obtain it, foreign qualifications are deemed valid, if obtained after at least 12 years of schooling; these qualifications must be accompanied by the Declaration of Value issued by the Italian diplomatic authorities.

In case the local education system provides for 11 or 10 years of schooling, the qualification is valid if it is integrated with one or two years of University studies, provided that all the exams scheduled for those academic years have been passed.

Candidates who do not possess or do not submit adequate qualifications within the deadlines indicated below, according to current legislation, will lose the benefit to enrol or will lose their enrolled status - if already admitted - and have no right to the refund of the amount paid to the University.

With reference to the recognition of foreign qualifications, the University will take into account the indications provided by the Ministry of University and Research "*Procedures for entry, stay and enrolment of foreign / international students to courses of higher education in Italy for the academic year 2021/2022*" and subsequent amendments (<http://www.studiare-in-italia.it/studentistranieri>).

To those eligible ranking favourably the University will make available **two cycles** of ancillary seminars for the medical profession (herein after referred to as the "**Seminars**"). The Seminars are to be used in exclusive way and, although not part of the academic curriculum or subject to examination, they are considered by the University to be extremely useful for educational purposes. The use of the Seminars will be made available by the University through the activation and transmission in favor of the single candidate usefully classified, of unique credentials that cannot be transferred or made available to others and that can be used with maximum flexibility according to the user preferences. With the activation and transmission of the credentials, the student has full availability of the contents of the Seminars that, for this reason, will be considered used. Failure to attend the Seminars constitutes an independent choice by the student and cannot therefore, under any circumstances, be invoked for requests for the refund of contributions already paid, which will therefore not be reimbursed by the University to the student even following the presentation of study waiver or transfer requests, referred to in Article 13.

Article 2 – Application submission

Registration for the admission test will be possible:

- starting from 3rd December 2021 until 9th February 2022 at 1 PM for the ordinary session;
- until 28th September 2022 at 1 PM for the extraordinary session (if any).

In order to complete the registration for the admission test, each candidate needs to connect to the web portal <https://unicamillus-admission.ilmiotest.it/>, register and follow the instructions.

The candidate is responsible for the information given when filling in the registration form in all its parts. The presence of false, incorrect or omitted information even in only one section leads to the immediate exclusion from the test or, if already passed, the cancellation of the candidate from the lists of those admitted, without any right to reimbursement of payments made.

Candidates wishing to register for the admission test before reaching the age of majority must follow the procedure with the help of a person who exercises parental authority.

Upon submission of the form for the registration to the test the candidate authorises UniCamillus to carry out checks at institutions and authorities that have issued or validated the academic qualifications attached to the application.

In case of difficulty in the registration procedure, candidates can send an e-mail to admission@unicamillus.org for assistance.

For all candidates, the participation fee of € 170.00 (one hundred and seventy) is not refundable for any reason (also in the event the student fails to be present at the admission test). The payment of the test participation fee, which must in any case be made in compliance with the deadlines indicated above, can be made through Paypal in the manner provided for in the online system.

The payment of the fee for access to the admission test does not complete the registration procedure for the admission test. The registration process itself must be completed in its entirety under penalty of exclusion.

Article 3 – Support for candidates with disabilities or specific disorders

Candidates with disabilities or with specific learning disabilities (SLD), in relation to the specific difficulties attested by medical certification, can make explicit request for aids and/or additional time compared to those established for the other candidates, as well as further measures to guarantee equal opportunities in carrying out the entry test. “Candidates with disabilities” shall mean: blind candidates, suffering from absolute blindness or with a visual residual not exceeding one tenth in both eyes; deaf candidates, suffering from deafness from birth or before learning the spoken language; candidates with a civil disability percentage equal to or greater than 66%; candidates in possession of the disability certification as from Italian Law 104/92 as amended by Italian Law 17/99. These conditions must result from an appropriate medical certification issued by a competent public health authority. The certifications will be accepted only if issued in Italian or English language.

“Candidates with SLD” shall mean: candidates with a diagnosis of dyslexia, dysgraphia, dyscalculia, dysorthography, resulting from appropriate clinical certification, issued by no more than three years by the National Health Service, or by specialists or structures accredited by the regional health service. The additional time allocated to candidates with SLD will be 30% more than the time set for admission tests, in accordance with Italian Ministerial Decree 5669/2011.

This request and the related medical documentation must be sent via registered mail with return receipt or hand delivered to the Registrar’s Office – UniCamillus University – Via di Sant’Alessandro – 00131 Roma, to be received no later than 26th January 2022 at 1 PM for the ordinary session and 13th September 2022 at 1 PM for the extraordinary session, if any.

Article 4 – Examination topics and admission criteria

4.1 The admission test will be in English and consist of a multiple choice written test, with five response options, among which the candidate must identify only one, discarding the wrong, arbitrary or less likely conclusions. In particular, the test is composed of 60 questions in English, based on the programs indicated in Annex A and thus divided:

- 15 questions on logical reasoning and reading comprehension;
- 35 questions on scientific topics (10 on Biology, 10 on Chemistry, 10 on Physics and 5 on Maths);

- 10 questions on humanitarian topics in various ways related to the specific mission of UniCamillus, better described on the University website.

The admission test will last 60 minutes.

For the evaluation of the test a maximum score of 90 (ninety) points is attributed according to the following criteria:

- 1,5 points for each correct answer;
- minus 0,25 points for each wrong answer;
- 0 points for each answer not given or multiple marking, or for all ambiguous responses.

4.2 Questions aimed at obtaining the scholarship

At the end of the exam, whether it coincides with the 60-minute expiration, or earlier in the event of voluntary closure of the test, each candidate will have to develop 3 (three) additional open tracks with brief arguments on issues concerning the humanitarian potential of the dentist profession in favor of less fortunate populations or groups. To complete these 3 additional tracks the candidate will have an amount of time proportional to the overall time of the admission test defined by this call. These tracks will not contribute to the evaluation of the test for the purposes of the ranking for admission to the Degree Course, but will be subject to independent evaluation for the purpose of recognition of the scholarship worth 5,000 Euros which will be paid upon payment of the last installment scheduled for 31 January 2023. In case of study waiver or transfer before 31 January 2023, the winning candidates will not benefit from this scholarship.

Article 5 – UniCamillus testing procedure

For the ordinary session, the written test will be held in home-based telematic mode with remote surveillance and assistance on 12 February 2022 (the University reserves the right, for organizational reasons, to also add the date of 13 February 2022). For the extraordinary session (if any), the written test will be held physically in Rome on 1 October 2022, at the venue and at the time that will be indicated in the invitation to the test.

The University reserves the right to plan additional sessions, change dates, times, locations of the admission test, publication dates of results and the test delivery method, also electronically, if it is deemed necessary for organizational reasons and/or for reasons of health safety, notifying all candidates through public notices on the University website.

In case of deferment, as long as it is decided prior to the deadline for the application to the admission test, the University reserves the right to postpone the deadlines for the submission of the applications and, where deemed useful, accordingly modify the other dates provided for by this Call.

On the day of the written test candidates must show a valid identification document according to art. 35 of the D.P.R. 28th December 2000 no. 445.

During the test the use of mobile phones, calculators, tablets and web-connecting devices is absolutely forbidden - except for carrying out the "computer based from home" test and according to the instructions that will be given by the administration of the test. The consultation of printed books and / or manuscripts and notes is equally forbidden.

During the test it will be allowed to use a blank sheet and a pen for any notes and / or calculations.

Non-compliance with these provisions will result in the exclusion from the test or from its continuation if already begun.

The winning candidates are those scoring more than 20 points and ranking favourably with reference to the number of available slots as from Art.1 of this Call.

In the event of a tie in the score, the candidate who obtained the highest score in the solution of humanitarian questions prevails. In the event of a further equal score, the youngest candidate will prevail.
