

Curriculum Vitae

Massimo Pieri

Curriculum Vitae

Dr. Massimo Pieri, Ph.D.

Date of Birth 21.10.1974; Rome, Italy

Marital situation: Married, 2 children

E-Mail: massimo.pieri@uniroma2.it

Education:

- 1992-1993: High school degree, Liceo G.B. Morgagni, Rome.
- February 2002: Graduated in biology at University of Rome "La Sapienza"
- June 2002: Achievement of the license to practice as Biologist
- March 2007: Research doctorate (PhD) in Neuroscience at University of Rome "Tor Vergata".
- September 2016: Specialization in Clinical Biochemistry
- May 2018: National Scientific Qualification for Associate Professor 05 / E3 - in the Fourth Quarter (2016-2018) of CLINICAL BIOCHEMISTRY AND CLINICAL MOLECULAR BIOLOGY, valid from 04/05/2018 to 05/04/2024.

Training:

- June 2000-February 2002- He attended the Endocrine Laboratory of Pharmacology and Metabolism at the National Institute of Health in Rome, doing a thesis entitled "Effects of cannabinoids on learning space and hippocampal synaptic plasticity in rats", making behavioral and electrophysiological studies.
- May 2001- He attended the theoretical and practical course for staff working with laboratory animals, organized annually by the service quality and safety of animal experimentation at National Institute of Health in Rome.
- April 2002-December 2003- Telethon Fellow under the project No 1185 entitled "Functional study of motor neurons in a genetic model of amyotrophic lateral sclerosis (ALS)" using primary cultures of cortical neurons and spinal motor neurons, at the Laboratory of Biophysics of Prof. Cristina Zona, Department of Neuroscience, Human Physiology, University of Rome "Tor Vergata" and Laboratory of Neurobiophysics of IRCCS "Santa Lucia" - Rome.
- November 2003-October 2006- PhD in "NEUROSCIENCE" at University of Rome "Tor Vergata". During this period he attended the laboratory of Biophysics of Prof. Cristina Zona, Department of Neuroscience, Human Physiology, University of Rome Tor Vergata and Laboratory of Neurobiophysics 'IRCCS "Santa Lucia" - Rome.
- March 2007- February 2009- Research Fellowship, University of Rome "Tor Vergata", Department of Neuroscience, Faculty of Medicine.
- 2-6 December 2008- Participation at the course: "60 years after Hodgkin & Huxley through Kats
- & Miledy: combined techniques of electrophysiology, cell physiology and molecular study of membrane ion channels" at the Department of Physiology and Pharmacology V. Erspamer, University of Rome "La Sapienza".
- April 2009 - March 2011- Research Fellowship, University of Rome "Tor Vergata", Department of Neuroscience, Faculty of Medicine.
- June 2011- to now: Specialization in Clinical Biochemistry at University of Rome "Tor Vergata", Department of Experimental Medicine and Surgery, Faculty of Medicine,

Rome Italy. Sections of Clinical Biochemistry, Hematology, and Protein.

- November 2012-2014 Research Fellowship, University of Rome "Tor Vergata", Department of Medicine System, Faculty of Medicine; CLINICAL BIOCHEMISTRY.
- June 2014- Internship at the Laboratory of Molecular Virology (Tor Vergata University Hospital; Prof. Perno).
- June 2015- 2016. Internship at the Laboratory of Forensic Toxicology, University of Rome "Tor Vergata", department of Biomedicine And Prevention, Faculty of Medicine, Rome Italy.
- 2014-2016 Research Fellowship, University of Rome "Tor Vergata", Department of Medicine System, Faculty of Medicine; CLINICAL BIOCHEMISTRY.
- December 2016-today. External consultant of Lifebrain Italia; Quality Department (UNI EN ISO 15189: 2013; UNI EN ISO 9001: 15).
- MILAN, 8 - 9 November 2017 1st COURSE: ISO 15189 ACCREDITATION FROM THEORY TO PRACTICE.
- MILAN, 16-17 May 2018 2nd COURSE: ISO 15189 ACCREDITATION FROM THEORY TO PRACTICE.
- December 2018- today. Technical director of two laboratories.

Research Interest:

Dr. Pieri's studies have dealt with neuronal excitability, ionic channels modulation and mechanisms of action of drugs on the Central Nervous System using electrophysiological techniques on animal models. Another major field of interest of Dr. Pieri has been the Amyotrophic Lateral Sclerosis (ALS). In this respect, he has focused on the altered functionality of the voltage-dependent-ionic channels and ionotropic receptors in a genetic model of ALS. During these years, Dr. Pieri managed to learn the basic techniques for obtaining primary cultures from spinal cord and cerebral cortex. Molecular Biology; RT PCR; Isolation, culture and characterization of murine neuron cells; isolation, culture and characterization of human muscle cells. Immunofluorescence, Western blot and Cell lines. Identification of substances of abuse using immunoenzymatic assay, gas chromatography equipped with a flame ionization detector (GC-FID) and gas chromatography-mass spectrometry (GC-MS).

Ability to work in-group experience gained during university, where it was essential to the collaboration between co-workers and subordinates. Organizational capacity. Ability to work independently.

In this last period he dedicated himself to the quality of the laboratory and to the management of quality in the laboratory both in the private and public sphere

Scientific Societies:

2014- Today Member of The SIBioC

2009- 2014 Member, The Physiological Society of Italy (SIF).

Teaching

2009-2010 Teaching on Course of Physiology in the Bachelor of Physiotherapy, Faculty of Medicine, University of Rome "Tor Vergata".

2010-2011 Teaching on Course of Physiology in the Bachelor of Physiotherapy, Faculty of Medicine, University of Rome "Tor Vergata".

2011-2012 Teaching on Course of Physiology in the Bachelor of Physiotherapy, IRCCS S.Lucia, Rome. 2014-2015 Teaching on Master in: Ethical, regulatory and methodological aspect of clinical trials, Faculty of Medicine, University of Rome "Tor Vergata".

2015-2016 Teaching on Course of Drug Analysis Application in the Degree course in Pharmacy Faculty of Pharmacy, University of Rome "Tor Vergata".

2015-2016 Teaching on Course of Biochemical Chemistry in the Bachelor of Science and Sport techniques, Faculty of Medicine, University of Rome "Tor Vergata".

2016-2017 Teaching on Course of Biochemical Chemistry in the Bachelor of Science and Sport techniques, Faculty of Medicine, University of Rome "Tor Vergata".

2017-2018 Teaching on Course of Biochemical Chemistry in the Bachelor of Science and Sport techniques, Faculty of Medicine, University of Rome "Tor Vergata".

2018-2019 Teaching on Course of Biochemical Chemistry in the Bachelor of Science and Sport techniques, Faculty of Medicine, University of Rome "Tor Vergata".

h-index on the date 10/05/2018, obtained from SCOPUS, is 18.
