Current position:

- Professor of Psychiatry Saint Camillus International University of Health and Medical Sciences – Rome - Italy
- Member of the College of Discipline, Saint Camillus International University of Health and Medical Sciences
- Founder and President of the BRF Foundation (Brain Research Foundation Onlus) Institute for Scientific Research in Psychiatry and Neuroscience

Degree and Specializations:

- Degree in Medicine and Surgery, October 1980;
- Specialization in Neurology, October 1984;
- Specialization in Psychiatry, November 1988;
- Training Jungian analysis, 1984-1991.

Employments:

- 1980-1983: Italian Navy Medical Officer
- 1984-1986: Assistant Neuropsychiatric Department, "G. Venticinque Hospital " Taranto
- 1986-1993: Chief of Neuropsychiatric Department, "G.Venticinque Hospital "Taranto
- 1994-1996: Medical Assistant; Territorial Health Unit of Psychiatry, Pisa
- 1997-2018: Medical Director of Day-Hospital Unit at the Psychiatric department "S.Chiera Hospital Pisa
- 2018 - today: Professor of Psychiatry Saint Camillus International University of Health and Medical Sciences
- Since 2015 Founder and President of the BRF Foundation (Brain Research Foundation Onlus) Institute for Scientific Research in Psychiatry and Neuroscience

University qualifications:

1994-1996: Adjunct Professor at the University of Siena, School of Mental Health

2002-2009: Adjunct Professor at the University of Pisa, Degree in Rehabilitation Psychiatry

2005-2017: Adjunct Professor at the University of Pisa, School of Postgraduate Psychiatry, School of Clinical Psychiatry

2018 – today: Professor of Psychiatry Saint Camillus International University of Health and Medical Sciences – Rome - Italy

Scientific activities:

- Organization and supervision of a naturalistic follow-up aspects anamnestic, clinical, course and treatment of bipolar disorder on a large sample of hospitalized patients.
- Study of the incidence and clinical correlates of comorbid lifetime spectra mood, panic-agoraphobic and obsessive-compulsive disorder in bipolar disorder in hospitalized patients.
- Follow-up naturalistic study in patients with RA.
- Study on the incidence of mood disorders and anxiety disorders in a population of PD (in collaboration with of Departement of Clinical Neurology, University of Pisa).
- Neuroplasticity, neurotrophic factors and affective disorder: serum BDNF in drug-free patients with unipolar or bipolar major depression and comorbid anxiety (in collaboration with the Department of Neuroscience of the National Research Council Area of Pisa).
- Study to assess levels of neurotrophic factors in rats after duloxetine treatment (in collaboration with the Department of Neuroscience of the National Research Council Area of Pisa).
- Neuroplasticity, neurodegeneration, mood disorders and Alzheimer's disease clinical and neurobiological relationships.

It carries out through the activity of the non-profit Foundation Brain Research, and in collaboration with the members of the scientific committee, an intense seminar activity directed to issues of popularization and current affairs scientific; between these:

- In the head of ISIS: psychology and psychopathology of the terrorist phenomenon
- Femicide: the reason for violence against women
- Clinical natural and evolutionary history of sleep
- Behavioral addictions and food addiction: can you be food addicts?
- Internet addiction and technological means: the story of a collective dependence
- Sleep: The physiology, the evolutionary meaning, the disorders, the associated pathologies
- Decision-making processes and their deviations

Memberships:

- S.I.P.** (Italian Society of Psychiatry),
- ECNP** (European College of Neuropharmacology)
- SOPSI** (Italian Society of Psychopathology)
- S.I.N.S.** (Italian Society of Neuroscience),
- APA** (American Psychiatric Association)
