

Covid-19 prevention and control measures

Preventing the spread of Covid-19 depends on our behaviour!

- If your temperature is over 37,5°C: **you must stay at home!**
- If you have respiratory symptoms (cold, cough, etc.): **you must stay at home!**
- If you live with someone who has flu symptoms (fever, cold, cough, etc.): **you must stay at home!**
- If you have had any contact in the last 14 days with people positive for the virus: **you must stay at home!**

If the above cases do not occur and you need to access UniCamillus spaces, please follow carefully the prevention and protection measures below:

- ❖ **disinfect your hands at the entrance check-in;**
- ❖ **always wear the mask;**
- ❖ **limite your stay** in UniCamillus classrooms and spaces to the time strictly necessary for carrying out the didactic activities;
- ❖ **avoid closed and prolonged contacts** with other people during the activities, keep a distance of at least 1 meter, avoid hugs, handshakes and physical contacts with every person;
- ❖ **avoid touching** your eyes, nose or mouth with unwashed hands;
- ❖ **always cover your mouth and nose with a tissue or use the inside of your elbow** when you cough or sneeze, avoiding touching respiratory secretions with your hands;
- ❖ **throw used tissue** in the trash and **immediately wash your hands;**
- ❖ **avoid** using **bottles and glasses** used by other people;
- ❖ **clean and disinfect frequently your hands** using the **dispensers of alcohol-based solutions** available at UniCamillus;
- ❖ **alert immediately the UniCamillus staff** should any respiratory or flu symptoms arise during your stay at UniCamillus, keep the distance from those present while the necessary coordination with the health authority takes place;
- ❖ **always follow the arrangement** in the classrooms of the seats placed at a minimal distance of 1 meter and use the same seat during the day;
- ❖ **follow the entrance and exit paths** indicated in the floor plans;
- ❖ **do not use the lift** except in cases of actual need due to impaired mobility;
- ❖ **follow the measures** for the Covid-19 prevention and control of the public authorities and those published on the University website www.unicamillus.org;
- ❖ **use**, where possible, the **Immuni App**
