The MIUR Decree may provide for the confirmation, increase or decrease of the slots specified in this call for application. The University will publish the related Ministerial Decree on its webpage.

Citizens from Norway, Iceland, Liechtenstein, Helvetic Confederation, Republic of San Marino and Vatican City are treated as EU candidates and must refer to the related call for application. Equal treatment applies to the categories that – according to what is provided by art. 26 of Italian Law 30 July 2002, n. 189 and subsequent modifications and alterations – access the courses under the same conditions as the Italian students.

Applicants wishing to take the admission test for entry to the Degree Course in Medicine and Surgery must meet one of the following criteria:

Candidates enrolled in the last year of secondary school at the state and private school institutions of the Italian education system, or at a foreign secondary education institution that allows the achievement of a valid qualification for admission to courses of higher education of the Italian system can also apply to UniCamillus, provided that they achieve their qualification by the last

expected date for the enrolment for the academic year 2020/2021, under penalty of non-usability of the admission test result.

Students already in possession of an academic degree (obtained in Italy or abroad) and those who come from another degree course are required to observe the same procedures indicated in this call for applications and take the admission test.

With regard to candidates who have obtained a High School Diploma, or are in their final year of High School, and have studied in a foreign institution, the related foreign qualifications are deemed valid only if accompanied by a Declaration of Value issued by the Italian diplomatic representation.

Candidates who do not possess or do not submit the necessary qualifications within the deadlines indicated by the university, according to current legislation, will lose the benefit to enrol or forfeit their enrolment if already admitted and have no right to the refund of the amount paid.

With reference to the recognition of foreign qualifications, the University will take into account the indications provided by the Ministry of Education, University and Research "Procedures for entry, stay and matriculation of foreign/international students to courses of higher education in Italy for the academic year 2019/-2020" and subsequent amendments (<http://www.studiare-in-italia.it/studentistranieri>).
