IMPLANT DENTISTRY

AY 2021/2022

SECOND LEVEL MASTER

TRAINING OBJECTIVES

The graduates will be able to independently plan and implement therapy concepts for the treatment of patients requiring dental implant prosthetics.

CAREER OPPORTUNITIES

Those who will obtain the 2nd level Master in IMPLANT DENTISTRY will be able, independently of the laws in force in the various countries, to carry out their professional activity autonomously at private health facilities, in a dependent or free professional regime.

TEACHING METHOD

Theoretical and practical sessions will be integrated by practical session on artificial and animal models.

The clinical surgery session would be performed during the course according to the calendar of practical lessons.

The calendar of the lessons could be modified and adjusted, with adequate notice, due to the national and international scientific calendar.
