The full affirmation of implantology has in fact revolutionized dental treatment plans, making implanto-prosthesis the elective indication in all states of edentulism. The aim of the course is to carry out a correct diagnostic approach and formulate a correct treatment plan providing the basis for an ideal implant-prosthetic rehabilitation by deepening the knowledge of the implant-supported prosthesis from design to manufacture, which takes into account the biological, functional and aesthetic implications. Knowledge about complications and their prevention will be deepened. Training objectives: to develop specialized knowledge in the design and execution of the latest oral implantology techniques and to acquire a thorough knowledge of the safest and most modern techniques and technologies in the field of implant surgery. The aim of Oral Surgery & Implantology Educational Program is to improve the surgical skills of the general dentists in their daily practice by the base of solid, scientific knowledge in order to provide safe, appropriate and efficient treatments.

The Master’s course is qualified as SCIENCE-EXPERIENCE for its technical, scientific and experiential characteristics.

**Master’s Director:** Prof. Giovanni Battista Menchini Fabris

The Master main partner is the Istituto Stomatologico Toscano

[https://www.istitutostomatologicotoscano.com/](https://www.istitutostomatologicotoscano.com/)

**Requirements:**

One of the following degree titles are required to be admitted to the Professional Master Program (or near graduation by the Master enrollment deadline):

- Master’s degree and / or specialist degree in dentistry and dental prosthesis;
- Master’s degree and / or specialist degree in medicine and surgery with specialization in odontostomatology or qualification for the practice of dentistry;
- Master’s degree in Medicine and Surgery.

Other candidates who can also apply:

- candidates in possession of an academic degree equivalent to those listed above obtained in a foreign University;
- candidates in possession of an academic degree obtained abroad and equivalent in duration and content to those listed above.

The University reserves the right to admit candidates with different qualifications but relevant to the Master’s course.

**Final certification of the Degree and formative credits:** All candidates who have completed the planned training and passes the final exam will receive a second level Master’s Degree in Oral Surgery and Implantology with the assignment of 60 credits (CFU).

**Language:** English

**Location:**

- Lectures will be held at the Istituto Stomatologico Toscano.
- The practical Hands on and the internship will be held at: the ISTITUTO STOMATOLOGICO TOSCANO.

**Duration:** The Master’s program lasts 12 months and includes a total time of 1,500 hours, divided into:

- practical activity and lectures and seminars;
- internship (750 hours);
- study and individual preparation activities including the preparation of the final exam.

**Places available.** The maximum number of students is 30.

For the purpose of activating the Master, the minimum of 15 students is requested. Below this threshold UniCamillus can unilaterally decide not to activate the Master ((participants will receive the already paid participant fees back).

**Frequency:** The attendance is mandatory for at least the 75% of the total hours of the Master. For frontal lectures and seminars (unless otherwise communication) a commitment of 4 session of approximately 5 days is foreseen for the entire duration of the Master. The total hours of training will be scheduled in accordance with the host structure.

If the candidate does not make the payment within the time specified by UniCamillus, he will lose the right to enroll / participate.

**How to register:** The application must be received, signed and written on plain paper, as well as written clearly and legibly, using the form available on the web site, by October 30th, 2020.
