

UNICAMILLUS
Selection Notification
 II level Master of Science
ORTHODONTICS
 A.A. 2020/2021 2021/2022

The purpose of the master is to provide clinicians with necessary means for a correct diagnostic and operative approach to orthodontic cases. Students will be drawn into modern orthodontics from the diagnosis to the post orthodontic procedures and will have the chance to get in contact with the most modern techniques and technologies. The Master has a theoretical-practical approach aimed at providing learning on the correct diagnosis, treatment plan and on the various orthodontic treatment techniques of growing patients (both in the prepubertal and adolescent phase), adults also with periodontal problems. The courses carried out within the Istituto Giuseppe Cozzani aim to provide basic theoretical and methodological knowledge and consist of lectures and practical laboratory activities
