SKILLS AND COMPETENCES RELATED

Living and working with other people, in a multicultural environment, occupying positions where communication is important and in situations where teamwork is essential.

I possess good communication, interpersonal and empathic skills acquired during my work experience. Ability to collaborate within interdisciplinary teams, both within rehabilitation and training settings.

Strong team-building and team-working skills developed at the Level I training courses in 'Musculoskeletal and Rheumatology Physiotherapy' at Roma Tor Vergata and Roma La Sapienza.

SKILLS AND COMPETENCES ORGANISATION AL

For example: coordination and/or administration of people, projects, budgets. In the workplace, in activities of volunteering, at home, etc.

Ability to work, collaborating with a multidisciplinary team, within complex organisational structures such as hospitals or simpler structures, such as the private sector.

My work experience, as the facility where I do my work is a university internship, has allowed me to develop clinical tutoring skills for university students. Deepening of organisational and managerial skills through the Master's degree in Rehabilitation Sciences of the Health Professions.

SKILLS AND COMPETENCES TECHNIQUES

With computers, specific equipment, machinery, etc.

Advanced biological, biomedical, kinesiological, biomechanical, neurophysiological, rehabilitation and preventive hygiene knowledge.

Professional skills in clinical contexts and in specialised in-depth studies in the neurorehabilitation, musculoskeletal and rheumatology fields. Theoretical and practical knowledge of cognitive and functional motor modifications in adult neurological pathology, acquired during the Master's course of specialisation in Neurorehabilitation. Ability to rehabilitate and manage musculoskeletal disorders acquired during the Master's course in Rehabilitation of Musculoskeletal Disorders and deepened during specialisation placements, conferences organised by societies of scientific interest, as well as in daily clinical practice in which I was able to increase my Clinical Expertise by working alongside high-calibre national personnel, both in the clinical and research fields. Excellent skills acquired during my experience at the Fondazione Onlus Don Carlo Gnocchi in Rome, in carrying out scientific research work related to the medical-rehabilitation field, through the use of technological assessment and rehabilitation tools such as movement analysis, stabilometric platform and robotic systems. Advanced methodological skills in scientific research acquired during the degree course and deepened both during the development of various thesis projects, during the course of the Master's degree specialisation in Neurorehabilitation and Rehabilitation of Musculoskeletal Disorders and perfected and deepened through the Master's degree course in Rehabilitation Sciences of the Health Professions. In-depth expertise in the management of thesis pathways for students of the CdL in Physiotherapy and specialised Master's programmes. Skills acquired during the Master's degree course in management, teaching and research.

Skills related to the field of organisational didactics and theoretical-practical frontal teaching acquired while collaborating in teaching at the Master of I

level in 'Musculoskeletal and Rheumatology Physiotherapy' at Roma Tor Vergata and Roma La Sapienza.

OTHER SKILLS AND COMPETENCES
Skills not previously
indicated.

Excellent command of Microsoft Office package tools (Excel, Word, Powerpoint, Outlook, One Drive) and e-mail.
Mastery of databases, software (Rayyan, Mendeley, Zotero) that can be used to carry out scientific research. Excellent experience of the English language gained abroad thanks to training experiences on the study holiday and cultural exchange model. Experience in humanitarian voluntary work through the Roma Altruista association.
