AWARDS AND HONORS

Sebatia-Ter International Award “Aurora Cannolicchio”

[2019]

Motivation: "The exceedingly high scientific level for research always carried out at high level of excellence, the profuse care and commitment with admirable empathy towards young patients make the Pediatric Neuro-oncology Unit of the Bambino Gesù Children's Hospital in Rome, a precious and irreplaceable point of reference for many families affected by very serious and touching events. A very generous commitment to the point that it is often tiring for the operators themselves, inevitably involved in dramatic events that cannot fail to affect the team members, who are still required to maintain clarity and strength of mind in their difficult tasks carried out in often dramatic situations".

“Fondazione Atena” Research Award

[2019]

Motivation: "Prize for research in pediatric Neuro-Oncology and in particular for studies on cellular immunotherapy".

In compliance with the GDPR and Italian Legislative Decree no. 196 dated 30/06/2003, I hereby authorize the recipient of this document to use and process my personal details for the purpose of recruiting and selecting staff and I confirm to be informed of my rights in accordance to art. 7 of the above mentioned Decree.
